

Nappy Fasteners

for use with cloth nappies

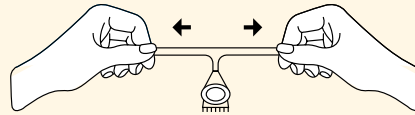

Directions

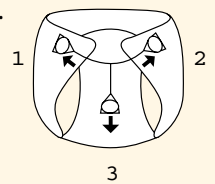

1. Before first use, gently stretch Snappi® in all directions, by holding in the centre with one hand and close to the end of the leg (not from outer ring) with the other hand then stretch about 10 times, repeat on the other leg. This initial stretching improves the elasticity of the product and will ensure a better fit.
2. To attach Snappi®, hook the left leg in, then stretch across and hook in the right leg, then stretch down & hook in the centre strap. Snappi® should form a 'Y' shape once fitted. Pull from tab not outer ring.

Step 1.

Step 2.

Care Instructions

- ALWAYS use over-pants with the nappy and Snappi® fastener to avoid baby trying to remove Snappi®.
- When the Snappi® fastener is not in use, fold the thin strip at the end of each leg to the back of the Snappi® and slip over the teeth of the white grip. This acts as a barrier and prevents the sharp teeth from being exposed.
- Clean your Snappi® in hot soapy water. Do not wash with nappies as this may weaken the attachment.
- Inspect Snappi® before each use, including the hooks.
- Discontinue use immediately and replace if;
 - There is any sign of damage, cracking, tearing, fading, or wear.
 - There is any sign of Snappi® losing its elasticity.
 - The length is greater than 160mm between the outer edges of both hooks (when not in use).
 - The hooks appear loose or have become partly separated from elastic section.
- We recommend the use of two or three Snappi® Nappy Fasteners in rotation. Snappi® can be used with flat or pre-fold cloth nappies, and works best on towelling nappies.

FOR YOUR CHILD'S SAFETY AND HEALTH

WARNING

1. USE UNDER ADULT SUPERVISION AND KEEP OUT OF CHILDREN'S REACH WHEN NOT IN USE.
2. THIS PRODUCT IS NOT A TOY AND SHOULD NOT BE GIVEN TO CHILDREN AS A PLAY ITEM.
