

Natural Latex Cherry Teat Medium Flow

Vented Teat Design Suitable for Happy Baby

- Steadiflow® Easy Hold Slimline Bottles
- Steadiflow® Classic Plastic Bottles
- Steadiflow® Classic Glass Bottles

Care Instructions

- To ensure hygiene, before first use, and after every use, wash in warm soapy water to remove all deposits.
- After washing, sterilise by boiling in water (for a maximum of 5 minutes), or using baby bottle sterilising solution in accordance with instructions (for one hour only).
- When dry, store teats in a dry covered container.
- Inspect before each use and pull the feeding teat in all directions. Throw away at the first signs of damage or weakness.
- Do **not** leave a feeding teat in direct sunlight or heat, or leave in sterilising solution for longer than recommended, as this may weaken the teat.

If teat is collapsing, simply try loosening (anticlockwise) the bottle collar slightly. Breastfeeding is best for baby but may not always be possible.

Sterilising

Before each use, thoroughly clean, then sterilise the soother and cover by either:

- (a) immersing entire soother in baby-bottle sterilising solution in accordance with instructions for use of the sterilising solution, or
- (b) boiling the soother in water for a maximum period of **5 minutes**.

Do not sterilise in microwave, electric steriliser or dishwasher.

Do **not** over sterilise as this may cause faster deterioration of the latex teat.

Complies to applicable
safety standards

FOR YOUR CHILD'S SAFETY AND HEALTH

WARNING

1. ALWAYS USE THIS PRODUCT WITH ADULT SUPERVISION
2. NEVER USE FEEDING TEATS AS A SOOTHER
