

Steam 'n' Go™ Sterilising Pod & Soothers

steam cleans in 1 minute

Cherry & Orthodontic Silicone Soothers fit into Steam 'n' Go™ Pod

happy baby®

Steam 'n' Go™

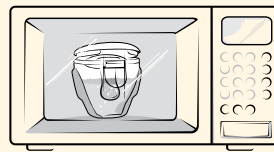

Sterilising

Place the soother in the Steam'n'Go™ Pod for Microwave Sterilisation in just 1 minute.

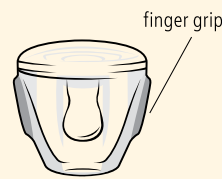

The Steam 'n' Go™ System

1. Add water to water level line, insert soother face down and click it into position.

2. Click lid into the first locking tab so it is in a semi open position. Place in microwave and set to 1 minute on high.

3. Remove from microwave ensuring fingers are placed on the finger grips and empty water, close lid and go!*

*Cool for 3 minutes with lid open before use.

Alternate Sterilisation Methods

- Firstly remove cover, then sterilise the soother and cover by either:
 1. Immersing entire soother in baby-bottle sterilising solution in accordance with instructions for one hour only, or
 2. Alternatively clean and sterilise the soother by boiling the soother in water for 5 minutes.
- Do **not** sterilise in electric steriliser or dishwasher.
- Do **not** over sterilise as this may cause faster deterioration of the teat.
- When dry attach the particular cover and store in a cool, dry covered container until soother is required.

As a part of either cleaning and sterilisation procedure, in order to completely clean inside and outside, a small amount of water may enter the teat.

This water should be expelled by squeezing the teat with sterilised teat tongs before use.

Care Instructions

- Carefully inspect the soother prior to each use, including plastic parts and by tugging the silicone teat. Extra care is required while baby is teething as sharp new teeth can damage the teat.
- Do **not** pull soother apart
- We recommend the use of 3 soothers in rotation.
Replace at least every 2 months even if soother still appears to be in good condition.
- Do **not** leave soother in direct sunlight e.g. on window sill or in car.
- Do **not** dip teat in sweet substances (e.g. honey, jam) as this can lead to tooth decay.
- Do **not** attach pins, ribbons or string to any part of the soother.

ATTENTION

FAILURE TO FOLLOW THESE INSTRUCTIONS MAY CAUSE DAMAGE TO THIS PRODUCT AND/OR YOUR MICROWAVE.

LATEX TEATS CAN NOT BE USED IN THIS POD.

Complies to applicable safety standards

FOR YOUR CHILD'S SAFETY AND HEALTH

WARNING

1. USE ONLY UNDER ADULT SUPERVISION
2. DO NOT TIE SOOTHER AROUND BABY'S NECK, AS IT PRESENTS A STRANGULATION HAZARD.
